contact@vermaverse.com

VeraForge Labs is the Information Technology, Research & Product Innovation Division of Vermaverse OPC Private Limited and is not a separate legal entity.

This PDF is a dated snapshot. For current case studies, visit veraforgelabs.in/work. Outcomes reflect published website links; no performance metrics are claimed.

CASE STUDY / 01

Kauseyam corporate website

CLIENT · Kauseyam — textile division of Vermaverse

The official corporate website and brand home for the textile division of Vermaverse OPC Private Limited.

The challenge

The textile division needed a single digital home that presents its vision, philosophy and brand ecosystem.

Our approach

We designed and built a corporate website that acts as the central hub for the division’s story and brand.

Outcome

Live at kauseyam.lovable.app ↗.

CASE STUDY / 02

Urban Baazaar online shop

CLIENT · Kauseya Sarees

A specialised online shop for Kauseya Sarees, connected to Shopify for inventory, orders and customer care.

The challenge

The business needed to sell online while keeping inventory, orders and customer care in one place.

Our approach

We built a storefront integrated with Shopify, plus an admin area for managing inventory, orders and customer enquiries.

Outcome

Live at vyomurbanbaazaar.lovable.app ↗.

CASE STUDY / 03

Kathayan storytelling platform

CLIENT · Kathayan — Vermaverse ecosystem

A digital storytelling platform for research-led Hindi narratives, knowledge initiatives and interactive story journeys.

The challenge

Research-led Hindi stories needed a home that supports reading, knowledge projects and interactive journeys.

Our approach

We built a storytelling platform with dedicated tools for creating and presenting narrative and knowledge content.

Outcome

Live at kathayan.lovable.app ↗.

CASE STUDY / 04

Astravya astrology platform

CLIENT · Astravya — Vermaverse ecosystem

A Vedic astrology platform offering automated birth chart analysis, forecasting and professional consultations.

The challenge

Astrology calculations and consultations needed to be brought together in one dependable digital product.

Our approach

We built an analysis engine for birth charts and forecasts, together with a consultation experience. Content is offered for cultural and personal interest.

Outcome

Live at astravya.lovable.app ↗.

CASE STUDY / 05

Vangmaya Publishing portal

CLIENT · Vangmaya Publishing

The official website, author portal and admin workspace for the Vangmaya publishing house.

The challenge

The publishing house needed a public presence, a place for authors, and internal tools in a single platform.

Our approach

We built a public site, an author portal and an administrative workspace on one shared foundation.

Outcome

Live at vangmaya-scribe.lovable.app ↗.

CASE STUDY / 06

Movie Magic Maker

CLIENT · Internal — VeraForge Labs

An AI-powered tool for generating, editing and assembling film projects, from the first story idea onwards.

The challenge

We wanted to explore how AI can support every stage of creating a film project, from idea to assembled scenes.

Our approach

We built a tool that drafts scripts and scene breakdowns and helps creators edit and assemble complete projects. It is an experimental project.

Outcome

Live at cinema-builder.lovable.app ↗.
